

# CHAIN BELT Conveyors

Experience Results

Machinex conveyors provide adaptable material handling solutions for every project. The result is a host of safety and maintenance features to maximize performance. All of our conveyors are built for quick installation, fast commissioning and minimal, but easy, maintenance.

The chain belt conveyor is recommended for Single-Stream, Paper Shredding, Fiber, and Waste Printing applications.

## TECHNICAL SPECIFICATIONS

- ▶ Full range of belt widths (from 30" to 84")
- ▶ Two (2) ply rubber belt
- ▶ Cleats available in different patterns
- ▶ UHMW strip wear protection for full length of conveyor
- ▶ Several configurations available (horizontal, nose-over, inclined, combination)
- ▶ Variable speed controls available (optional)
- ▶ Transition hoppers and chutes available on demand

## CONSTRUCTION & FEATURES

- ▶ Unique design transfers loading stress away from chains
- ▶ Standard, full length steel decking to minimize belt damage
- ▶ Self-cleaning return shoe to avoid chain wear
- ▶ Full length chain and conveyor frame protection
- ▶ Fully enclosed gear motors and direct drive conception
- ▶ Durable uni-body construction (closed frame conveyor)
- ▶ Safety guards
